

The temperature sensor measures the room temperature. It is connected to the fan coil controller FC/S 1.1 via screw terminals.

The temperature sensor cannot be operated in connection with other devices than with the fan coil controller FC/S 1.1!

Technical data

Cable	– Cables	3-core cable
	– Length	2 m
	– Colour	grey
	– Type	plug connector with screw terminals
Connections	– Plug location on the FC/S 1.1	“Temp.Sensor”
	– green cable	screw terminal no. 1
	– white cable	screw terminal no. 2
	– brown cable	screw terminal no. 3
Weight	– 0.05 kg	

ABB i-bus® EIB / KNX

Temperature sensor for fan coil controller
