

**instabus      KNX/EIB  
sensor 1gang built-in  
(01.11.2005)**

**Brightness  
light grey**

**Order no. 7543 10 01**

Packing unit 1

Operating voltage over bus 21 - 32 V=

Brightness measuring range 0-2 kLux

Operating temperature -5 - +45 °C

Sensor cable length (not extendable) 2 m

Sensor dimensions (W x H x D) 26 x 25 x 77,4 mm

Dimensions, built-in device (L x W x H) 275 x 42 x 28 mm

- with brightness sensor built-in, e.g. for intermediate ceiling
- constant light control only possible in conjunction with dim actuators or control units
- with programming button and red programming LED
- bus connection via connecting terminal
