

How to order a rocker

The ordering code of a rocker is formed by a fixed part (EK-TS) plus a variable part which represents modularity, material, colour and customization codes as shown in symbol library (pages 30-31).

Rocker codes

Plastic material

Shape	Colour	Finishing	Code
square	ice white	normal	EK-TSQ-GAA
		soft-touch	EK-TSQ-GAB
	fire white	normal	EK-TSQ-GAC
		soft-touch	EK-TSQ-GAD
	intense black	normal	EK-TSQ-GAE
		soft-touch	EK-TSQ-GAF
	silver	normal	EK-TSQ-GAG
	bronze		EK-TSQ-GAH
	hematite		EK-TSQ-GAI
	graphite		EK-TSQ-GAL
rectangular	ice white	normal	EK-TSR-GAA
		soft-touch	EK-TSR-GAB
	fire white	normal	EK-TSR-GAC
		soft-touch	EK-TSR-GAD
	intense black	normal	EK-TSR-GAE
		soft-touch	EK-TSR-GAF
	silver	normal	EK-TSR-GAG
	bronze		EK-TSR-GAH
	hematite		EK-TSR-GAI
	graphite		EK-TSR-GAL

Aluminium

Shape	Colour	Code
square	aluminium	EK-TSQ-GBQ
	nickel	EK-TSQ-GBR
	titanium	EK-TSQ-GBS
	carbon	EK-TSQ-GBU
rectangular	aluminium	EK-TSR-GBQ
	nickel	EK-TSR-GBR
	titanium	EK-TSR-GBS
	carbon	EK-TSR-GBU

Note. The code shown in the table includes information for the shape of the rocker (square or rectangular), the material (plastic or aluminium), colour and finishing. The given codes must be completed with the extension regarding symbols (see pages 29-31).
