|  pure white glossy (thermoplastic) | 0211 204 | 10 | 01 | 4010337066361 |

Information

The Gira E22 switch range offers a new method for mounting. Using a special device box, it can be installed flat on the wall. This E22 device box can be installed directly in the wall in cases of hollow-wall mounting, e.g. a flexible wall system. For flush-mounting in masonry, the E22 device box is inserted into an E22 flush-mounted box, which is then placed in the wall.
