### DESCRIPTION

The ITR630-0003 - KNX DND/MUR panel is a simple way for guests to communicate with staff from their room. If the customer do not want to be disturbed, need the room to be cleaned or available for room service it is as simple as touching related buttons. The product includes a doorbell button to announce visitors in a kindly way. Besides, optionally the doorbell can be disabled whether the “Do Not Disturb” is active.

The KNX DND/MUR panel needs an extra 12-36 V DC power supply for LEDs. KNX bus enables information exchanges with KNX devices and the integration with a building management system.

Moreover, the KNX DND/MUR panel can be customized with the room number, icons (Do Not Disturb / Make Up Room / Occupied (optionally), logo. Also, the logo of the hotel can be made on the doorbell button. So, hotels can simply integrate our technology into their own design.
