

## UP 14/2 Q stereo

High-performance, square, 2-way stereo ceiling speaker with plastic frame. Ideal for relatively small rooms such as bathrooms or entrance halls, where two normal stereo speakers could not be properly positioned in the classical way. The UP 14/2-Q Stereo comes with a 166 mm two-voice-coil woofer and two tweeters. Both stereo channels come from a single speaker. Four retaining clamps are used for installation. To do so, the grille must first be dismounted and four screws tightened.

### Technical Data

### UP 14/2 Q-8 stereo

Load Rating / Music Power	25/40 W
Impedance	2 x 8 Ohm
SPL 1W/1m	86 dB
