Product details

ENOCEAN GATEWAY GESIS EIB V-56/4 RCSP

The flat gesis EIB V 56-fold gateway for surface mounting and flat cable adaption is converting radio controlled EnOcean telegrams t o KNX. Four switching outputs are included. The 1-phase mains supply is done with a 3-pole GST18i3 connector. If a flat cable is used the adapters for mains and KNX are separate with a spacer. All connections are pluggable.

Basic information

Article number	83.020.0220.1
EAN	4015573987586
Unit of measure	Piece
Packaging Quantity	1

Classification

Wieland Product Families	Flat and suitable for the flat cable
Wieland Product Families	Flat and suitable for the flat cable - gesis EIB V
Technical Classification	System interface/media gateway for bus system

General Data

Bus system EIB/KNX	Yes
Bus system LON	No
Bus system radio frequent	Yes
Mounting method	Surface mounted (plaster)
Connection type	Plug-in connection
Degree of protection (IP)	IP20
Colour	Grey
RAL-number (akin)	7035

Feed In

Operating voltage	230 V
Voltage type	AC
Bus input	KNX TP1
Different phases connectable	No

Input

Number of inputs	56

Product details

Input type	Radio control

Output

Number of outputs	
Maximum load	
Mode	
Voltage of switching output	230 V
Voltage type of switching output	AC
Current of switching output	16 A
Manual control/hand actuation	Yes
Max. number of switching contacts	4

Dimensions

Width	254 mm
Height	112 mm
Depth	32 mm
Width in number of modular spacings
