

Product details

BINARY INPUT 6-F GESIS KNX TA 6/4

The gesis KNX 6-fold pushbutton interface is a binary input/output device for flush-mounting. It can be installed together with conventional pushbuttons/switches in mounting boxes. This way all switching programs can be integrated into KNX systems. Four of the six inputs can be configured as outputs for LEDs.

Basic information

| | |
|--------------------|---------------|
| Article number | 83.020.1406.0 |
| EAN | 4049088008900 |
| Unit of measure | Piece |
| Packaging Quantity | 1 |

Classification

| | |
|--------------------------|-----------------------------------|
| Wieland Product Families | Push button interface - gesis KNX |
| Technical Classification | Binary input for bus system |

General Data

| | |
|---------------------------|-------------------------|
| Bus system EIB/KNX | Yes |
| Bus system LON | No |
| Bus system radio frequent | No |
| Bus connection included | Yes |
| Mounting method | Flush mounted (plaster) |
| Connection type | Plug-in connection |
| Degree of protection (IP) | IP20 |
| Colour | Grey |
| RAL-number (akin) | 7035 |
| Modular expandability | Yes |

Feed In

| | |
|-------------------------|---------|
| Operating voltage | |
| Voltage type | |
| Bus input | KNX TP1 |
| Additional power supply | No |

Product details

Input

| | |
|--------------------------|-----|
| Number of inputs | 6 |
| Min. input voltage | |
| Max. Voltage | |
| Generates signal voltage | Yes |

Dimensions

| | |
|-------------------------------------|-------|
| Width | 37 mm |
| Height | 37 mm |
| Depth | 10 mm |
| Width in number of modular spacings | |
