3,5" TFT Display mit Touchscreen

Hardware:

- 3,5" - TFT-Color Display with 320xRGBx240 (256K Color) and Touchscreen
- 200MHz 32-Bit ARM9 Processor
- Linux OS
- Adjustable LED-Backlight
- Alarm signal
- ETS-programmable
- 5 display pages, each with up to 8 control elements
- For each element up to 4 KNX objects used
- Wide range of Control elements Pushbuttons / switches (opt. with status report)
- Slidecontroller, +/- push button for value settings (Set points etc.)
- Elements for dimming with switching function shutter/blinds controller, clock timer, timer etc.
- additional display page for alarm objects
- Each page and each control element can be protected by password
- Various user interfaces, layouts and standby options selectable on the device
- Different font sizes adjustable
- Customizing applicable

EIB/KNX-elements:

- up to 196 objects
- System objects:
 - time / date
 - Brightness
 - Temperature
 - Alarm

Applications:

- Switching and dimming of lighting
- Display of the switching status in building
- Control of various devices in the KNX-Bus
- Handling of shutters/blinds
- Alarm functions acoustic and optical
- Display of motion detector alarms as plain text
- Display and setting of heating control
- Control of multi room audio-systems
- Display of Temperatures
- Weekly time clock

Connection:

- Auxiliary supply DC 9-32 V, ca. 1,5 VA,

Article	Article	Article Description	Article Nr.	List Price
Touch_IT				Product Gr. 1
Indoor, in-wall, incl. mounting elements, KNX conn.				
	Touch_IT C3 white	3,5" display in a designer plastic housing for visualization and controlling via KNX-Bus. It will be mounted with a support ring in a standard box (68mm) in wall	22311101	369,00 €
	Touch_IT C3 anthracite	Ambient Temperature: Storage -5...+60 °C, Operating -5...+55 °C	22311102	369,00 €
	Touch_IT C3 AM	3,5" display in metal housing for visualization and controlling via KNX-Bus. It will be mounted with a support ring, magnets and a safety screw in a standard box (68mm) in wall.	22310200	396,00 €

2" LCD Color Display - Visualization and Controlling via KNX Bus

Hardware:

- LCD Color Display: 160x128 Pixel, BxH 37 x 30mm, 48mm Diagonal
- 50 MHz Arm7-Processor (256kByte internal memory)
- 128 kByte memory size for e.g. 24 JPG pictures for one project
- Piezo-signal for alarm messages
- Rotary control button with detent for input and navigation
- Adjustable LED background lighting

Software ArcSuite:

- Java based PC Software for projection of MicroVis
- Download www.Arcus-EDS.de
- programmable via USB

Graphics and Software

- Free design of page contents
- 32 elements per page, position and size freely definable
- unlimited pages, dependent only on the internal memory space (31kB)
- Various character fonts, font sizes
- Integration of JPG graphics
- Switch key/push button, rotary dimmer, display, values and text displayed in list
- timer, pin code, scene generator, etc.
- Additional Forth programming language with substantial mathematical, logical and string components for designing individual elements.

EIB/KNX Elements:

- Up to 128 group addresses through polling with Start
- 17 EIS types incl. 14 byte ASCII character string
- Listening group addresses
- Filtered acceptance of group addresses from ETS
- Direct dimming function with rotary control button, dimming through stop telegram
- Buttons (1Bit) as switch or key elements with stop telegram
- System time/system date
- Brightness, contrast and background lighting adjustable by EIB
- All EIS types as acoustic or optic alarm
- Acoustic alarm freely programmable

Areas of Application

- Switching and dimming of lighting
- Display of switching status in house
- Recording and retrieving of light sequences
- On and Off switch for various devices
- Operating blinds
- Alarm functions, acoustic and optical
- Motion detector alarm with text indicator
- Display and set up of heating control
- Volume adjustment in multiroom plants
- Display of outdoor and indoor temperature
- Weekly timer
- Display and retrieval of system-resident JPG pictures
- Protection of pages with pin code
- Logical and/or functions

Affixing:

- Connection and supply: directly on EIB/KNX Bus, DC 24 V, ca. 15mA, no auxiliary voltage necessary

KNX Sensors Temperature		Sensor: PT1000
T Product Data Base arc_TFK.vd2 Product Sensor Temperature Application Description 100_APB_SK0x-Txxx	Sensors with integrated KNX-Bus Coupler for measuring and regulating temperature. No auxiliary voltage necessary. ETS Application: - Measured values of temperature - PI or two-position controller for temperature with steady or PWM output - Various operating methods for temperature control: relative RTC, absolute RTC, standard - Maximum limit alarm with presetting via KNX Bus: temperature - Minimum/Maximum temperature saved - Adjustable frost protection alarm - Adjustment of all standards and limits - Actual value adjustment for temperature

KNX Sensors Physical and Chemical Measurement Technology

S8

Product Data Base

arc_S8.vd2

Product

**Physical and Chemical
Measurement
Technology****Application
Description:**

80x_APB_S8-xxx

The production series S8 uses sensors and controllers for a number of physical and chemical measurements for indoor and outdoor areas.

Functions :

Measured values (1Bit up to 4Byte Float) with each

- Two position controller with switch and pulse 1-bit output or

- PI controller with continuous 8-bit or pulse-width modulated 1-bit output

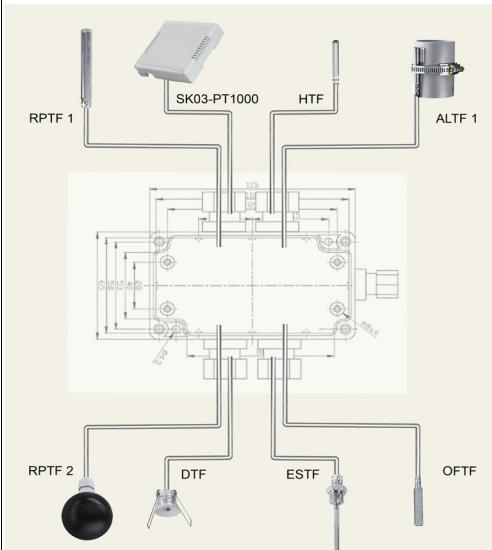

- Adjustable periodic display of control variable : no periodic display /10-250 seconds

- Adjustable release and lock with all controllers

- Threshold alarm for upper and lower thresholds

- Auxiliary quantity of set value or threshold via the bus

- Calibration of the sensor (offset cancellation)

KNX Smart Metering**Heat metering (WMF)**

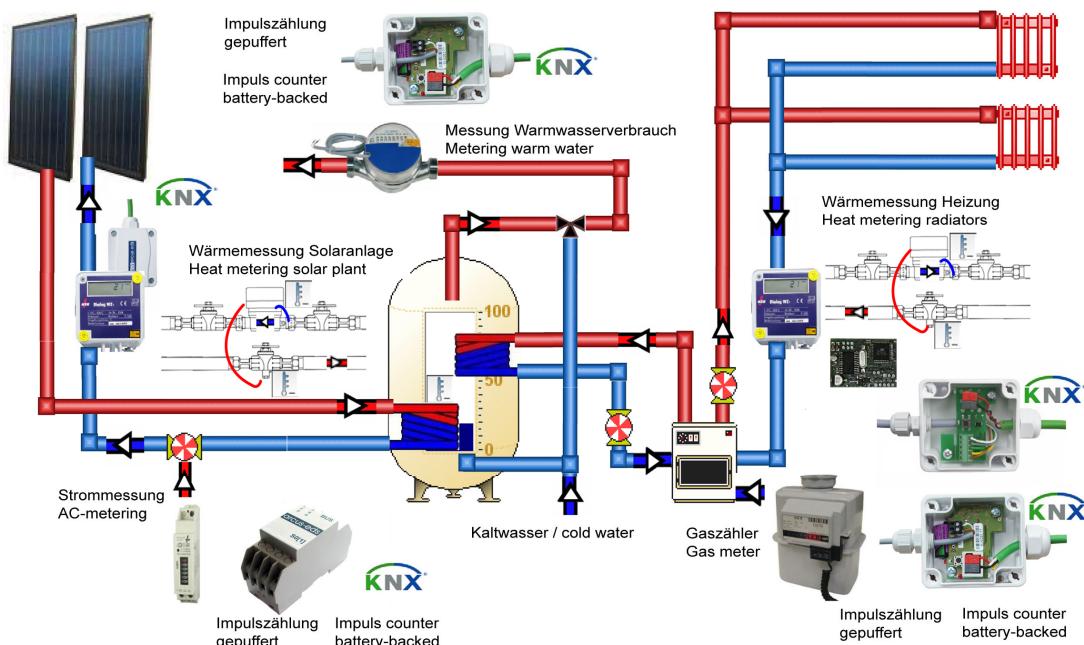

The Arcus-EDS Heat Meter is a „Dialog WZ-CD“ Heat Consumption Counter (calibration optional) from the company NZR, with an integrated KNX Bus Interface for remote reading and monitoring. The electronic counter is operated by a lithium battery with a 5-year lifespan and 1-year additional reserve. The KNX Bus Interface is built into the counter and is connected non-reactively with the external terminal block. The meter with the integrated Bus Interface is authorized by the Physikalisch Technischen Bundesanstalt (PTB) (Federal Institute of Physical Engineering).

Metering consumption Impuls counter IMPZ

For a all-purpose consumption data logging for the KNX- Bus arcus-eds has developed a impulse counter module with backup data storage unit and KNX Bus Interface for remote reading and monitoring. The module in a IP65-Box is operated by a lithium battery with a 5-year lifespan and 1-year additional reserve.

Meter including a pulse output (S0 Interface, relay contact) irrespective of the medium are possible to connect to the KNX-Bus. The metering principle allows also an easily retrofitting in existing installations.

Appropriate meters for this application are the PTB-authorized meters for water, electricity and gas from the company NZR.

	KNX auslesbare Daten /readable data : Seriennummer /serial number Akkumuliertes Volumen in m³ /accumulated volume in m³ Momentaner Durchfluss m³/Zeiteinheit /current flow m³/unit of time Aktuelle Uhrzeit /current time Aktuelles Datum /current date Letztes Stichdatum /last control date Letzter Stichwert /last control reading Nächstes Stichdatum /next control date Verbrauchswert /consumption Verbrauchswert Reset /consumption reset Verbrauchswert Datum /consumption date Verbrauchswert Uhrzeit /consumption time
	Document : 620_APB_IMPZ_Wasser_NZR

Preise ohne Eichgebühren /prices exclusive of calibration fees

WZ-M Technische Daten	Connection	Note	Articel-Nr.	List Price
Nenndurchfluss /flow rate	1,5 m³/h 15 mm 3 m³/h 80 mm	AG Zähler /meter 3/4"	WZK-M kalt cold 30°C	60201-75124015 188,50 €
Nennweite /nominal diameter		AG Verschraubung /screw connection	WZW-M warm warm 90°C	
Maximaler Durchfluss /max. flow rate	3 m³/h 110 mm	1/2"	60201-75124515	188,50 €
Baulänge /length				
Nenndurchfluss /flow rate	1,5 m³/h 15 mm 3 m³/h 110 mm	AG Zähler /meter 3/4"	WZK-M kalt cold 30°C	60201-75124115 188,50 €
Nennweite /nominal diameter		AG Verschraubung /screw connection	WZW-M warm warm 90°C	
Maximaler Durchfluss /max. flow rate		1/2"	60201-75124615	189,50 €
Baulänge /length				
Nenndurchfluss /flow rate	2,5 m³/h 20 mm 5 m³/h 130 mm	AG Zähler /meter 1"	WZK-M kalt cold 30°C	60201-75124025 189,50 €
Nennweite /nominal diameter		AG Verschraubung /screw connection	WZW-M warm warm 90°C	
Maximaler Durchfluss /max. flow rate		3/4"	60201-75124525	
Baulänge /length				

Eichgebühren /calibration fees WZ-M	kalt /cold	6,40 €
	warm /warm	7,50 €

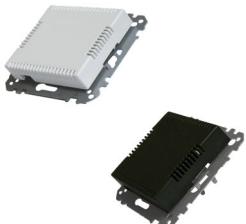

Additional devices are available from NZR. All water meters equipped with an SO interface are compatible with the impulse meter module. Price available on request.

T	Article	Article Description	Article Nr.	List Price
SK03R		Integrated Temperature Sensor	Product Gr.	
EIB/KNX, in-wall, Indoors, IP20		Relevant Documents: 100_APB ; 190_PBM		
 	SK03R-T white	<p>KNX Sensor Temperature internally integrated for in-wall mounting in dry indoor areas (IP20). with additional temperature regulator knob (LED optional)</p> <p>Application: Recording and controlling room temperature in homes, hotels, offices, exhibition areas and schools.</p>	30133201	prices on application
	SK03R-T anthracite	<p>Mounted with 2 spring clips and support ring (included) for a 68mm in-wall box. Compatible with 55 mm switching systems (e.g. Gira, Merten). Operating temperature: -25...+55°C</p>	30133202	prices on application

MicroVis				
MicroVis II logic		Special Applications IP65	Product Gr.1	
Indoors, on-wall		Relevant Document: 021_PBM		
 	MicroVis II logic IP65	<p>The LCD Display MicroVis II Logic is used for operating, displaying as well as for monitoring and reporting in EIB/KNX systems. It serves the display and operation outdoors or in damp interiors.</p> <p>The LCD Display MicroVis II Logic uses a KNX/EIB Bus to communicate with a variety of modern electronic devices.</p> <p>Function display and page content are completely projectable. Every installation can be individually customized according to the customer's needs.</p> <p>A rotary push button operates the menu and allows switching and analogue value setting such as temperature, brightness and volume. Ambient Temperature: Storage -5...+60 °C, Operation -5...+55 °C</p>	20011165	prices on application

Accessories for T Sensor Systems / TTFK Sensor Systems Connection of an additional sensor				
Temperature Probe PT1000 for in-wall Box				Product Gr. 2
	SK03-PT1000 white	Temperature Probe PT1000 for in-wall box mounting with screw-in clamps. Compatible with switching systems (e.g. Gira, Merten in standard 55mm).	90104401	30,50 €
	SK03-PT1000 anthracite		90104402	30,50 €
Feed/Surface Probe				
	OFTF PT1000	Feed Temperature/Surface Probe -30...+105°C PVC Cable 1.5m	90100001	18,95 €
Sleeve Probe				Product Gr. 2
	HTF PT1000 PVC	Sleeve Probe PVC -35...+105°C PVC Cable 1.5m	90100002	11,75 €
	HTF PT1000 Silicone	Silicone Sleeve Probe Waterproof -35...+180°C Silicone Cable 1.5m	90100003	14,90 €
	HTF PT1000 Teflon	Teflon Sleeve Probe -50...+250°C Teflon cable 1.5m	90100055	17,95 €
Pipe Feed Probe				Product Gr. 2
	ALTF1 PT1000 PVC	Feed Temperature/ Pipe Feed Probe -35...+105°C PVC Cable 1.5m	90100004	14,00 €
	ALTF1 PT1000 Silicone	Feed Temperature/ Pipe Feed Probe -35...+105°C Silicone Cable 1.5m	90100005	15,10 €
Screw-In Temperature Probe				Product Gr. 2
	ESTF PT1000-50 PVC	Screw-in Temperature Probe, Immersion Temperature Probe, G1/2, 50mm V4A, PVC - 35...+105°C, 1.5m	90100008	28,50 €
	ESTF PT1000-100 PVC	Screw-in Temperature Probe, Immersion Temperature Probe, G1/2, 100mm V4A, PVC - 35...+105°C, 1.5m	90100009	29,60 €
	ESTF PT1000-50 Silicone	Screw-in Temperature Probe, Immersion Temperature Probe, G1/2, 50mm V4A Silicone -35...+180°C, 1.5m	90100010	29,50 €
	ESTF PT1000-100 Silicone	Screw-in Temperature Probe, Immersion Temperature Probe, G1/2, 100mm V4A Silicone -35...+180°C, 1.5m	90100011	30,60 €

	Article	Article Description	Article Nr.	List Price
Ceiling-Mounted Temperature Probe				Product Gr. 2
	DTF PT1000	Ceiling-Mounted Temperature Probe -20...+90°C	90100012	30,50 €
Pendulum Room Probe Temperature				Product Gr. 2
	RPTF1 PT1000	Pendulum Room Temperature Probe Storage Temperature.: -30...+100 °C Operating Temperature: -30...+75 °C Cable Length 1.5m	90100050	48,50 €
Pendulum Room Probe Temperature				Product Gr. 2
	RPTF2 PT1000	Pendulum Room Temperature Probe Storage Temperature.: -30...+100 °C Operating Temperature: -30...+60 °C Cable Length 1.5m	90100051	48,60 €

	Article	Article Description	Article Nr.	List Price
Additional cable lengths available on request				Product Gr. 2
Cable	AN-PVC- T2x025	PVC LiYY, 2x0,25 mm ² , Price per meter	90200220	0,85 €
	AN-Silicone -T2x025	Silicone SiHF, 2x0,25 mm ² , Price per meter	90200221	1,55 €
	AN-Teflon -T2x100	Teflon Li-6Y6Y-OZ, 2x1,00 mm ² , Price per meter	90200223	on request

	Article	Article Description	Article Nr.	List Price
Accessories for TFK Sensor Systems / TTTFK Sensor Systems				
Pendulum Room Probe Temperature				Product Gr. 2
	RPFF (Sensirion)	Pendulum Room Humidity/Temperature Probe Storage Temperature: -25...+50 °C Operating Temperature: -5...+55 °C Cable Length PVC 2m	90100054	81,00 €
Raumpendelfühler Temperatur / Feuchte				Product Gr. 2
	RPFF-MMF (Sensirion)	Room Pendulum Condensation Proof Humidity/Temperature Probe Storage Temperature: -25...+50 °C Operating Temperature: -5...+55 °C Cable Length PVC 2m	90100056	104,00 €

	Article	Article Description	Article Nr.	List Price
Accessories for KNX Sensor Systems S8				
Water Quality Probes WAQ				Product Gr..9
	Electrode Kit Single Rod Measuring Cells	Electrode Kit for the Sensor SK08-WAQ detecting pH values of water and redox potential	91110020	117,00 €
Global Irradiance Sensor GLBS				Product Gr..9
	GLBS- DAV6450	Global Irradiance Sensor for SK08-GLBS	91110021	160,00 €
	Mounting Set GLBS	Mounting Set for GLBS Sensor	9110022	27,00 €
Soil Moisture Probe Watermark WMT				Product Gr..2
	WMT	Water Mark Measuring Probe incl. Connecting Cable (Length 5m)	91100000	98,00 €
		Connecting Cable for WMT (each additional meter)	90200500	1,65 €
